

Volunteers Needed

to

MEASURE THE MUCK

while Catching the King

Contribute to research studying water quality impacts of coastal flooding! While you're mapping tidal flooding with **Catch the King**, collect water samples to measure nutrients and bacteria in the floodwater that will enter Chesapeake Bay.

When:

September 13, 2025, 12:45 pm

October 11, 2025, 11:30 am

Where:

Norfolk

Old Dominion University (Sept)

Ryan Resilience Lab (Oct)

Gloucester Point

Virginia Institute of Marine Science
